## Technical Seminar

### « Elastomers in Land and Naval Transport »

Thursday, December 11, 2025 (Le 253, Paris 10e)

Today, land and sea transport – whether for passengers or goods, by road, rail, river or ocean – is at the center of a deep and ongoing transformation. On the one hand, we face the urgent need to reduce pollutant and greenhouse gas emissions, minimize congestion and human impacts, and preserve the environment. On the other hand, we're looking for ever greater freedom of movement, the opening of expanded routes and destinations, and a more globalized, massified supply chain with uncompromising deadlines and costs.

Energy frugality and the adoption of decarbonized energies, access to both urban centers and more remote areas, a growing, more mobile and more affluent global population, and the emergence of new mobility and logistics services powered by artificial intelligence are all major challenges. The mobility sectors must innovate and come up with numerous solutions. These solutions will naturally require changes in all materials, including our rubbers, elastomers and silicones.

Elastomers provide a wide range of critical functionalities in the fields of mobility resources, infrastructure and maintenance. New applications, materials and formulations await us. What solutions will our elastomers bring to these ongoing revolutions?

If you are involved in the mobility sectors – automotive, truck, bus and coach, train, metro and tramway, pleasure craft or fishing boat, commercial or military ship – as a designer of parts and functions, a prime contractor, a provider of material or service solutions, research and innovation specialist, come and share your experience!

This new technical day is designed for you and with you in mind.

For the AFICEP, Bruno MARTIN

## Call of Papers

### ELASTOMERS IN LAND AND NAVAL TRANSPORT

LAST NAME :

FIRST NAME:

JOB TITLE :

COMPANY NAME :

ADDRESS :

POSTAL CODE :

CITY :

COUNTRY :

PHONE NUMBER :

E-MAIL :

☐ Would like to present an oral communication

☐ Is interested in attending the congress and would like to receive the program

☐ Is interested in sponsoring this event

Document to be returned to AFICEP by **October 10, 2025**

**ABSTRACT:**

Send before

**October 10, 2025**

To AFICEP: [aficepaficep@gmail.com](mailto:aficepaficep@gmail.com)

**Title:**

**Name of speaker :**

**Abstract :**
